Release Notes Summary

Version 8.0 Release 200

Number	Notes
21036	New: DoorDash Drive delivery requests can now be cancelled.
15255	New: Customer Delivery Confirmation notifications can now be sent as text messages (SMS).
21025	Changed: Updated warning message when adding a tender surcharge to explain card brand limitations.
21023	Changed: Drivers are now sorted by last name instead of first name on the Fees Paid to Driver Summary Day Report section.
20982	Changed: With the Worldpay Express/triPOS Direct integration, added support for the Ingenico Lane/3600 and Lane/7000 PIN pads, and removed support for the Ingenico iPP320.
20981	Changed: Added Monetra 9 folders to the list of folders in the Daily File Backup.
21068	Fixed: Punchh rewards detail was not included in Coupon Details and Coupon Summary section of Day Report.
21032	Fixed: The gift card balance was not shown on the slip after a purchase through Worldpay triPOS Direct.
21016	Fixed: Tender Discounts were appearing on reports as negative Tender Surcharges.
21000	Fixed: Punchh coupons would show the Punchh placeholder coupon ID instead of the Punchh rewards caption.
20827	Fixed: Slips for SpeedLine Pay transactions weren't showing Sale at the top.
7599	Fixed: In the Order Type Surcharge settings it was incorrectly showing Subtotal instead of Purchase Subtotal.

Version 8.0 Release 112

Number	Notes
20998	Fixed: Coupons were occasionally increasing Punchh checkin amounts.
21003	Changed: UniTerm upgraded to 9.20.0 (Security Fix).

Version 8.0 Release 111

Number	Notes
20984	Fixed: Could not connect to Punchh's new servers.
20994	Fixed: Debit Card authorization and Gift Card redemption slips could not be reprinted if they were not printed at time of tender.

Version 8.0 Release 110

Number	Notes
20839	Changed: The Help file indicates that deferred orders with a Print Time set to before a future day's Activation Time will activate the day before.
20983	Fixed: The Monetra Settlement Reports were not showing AMEX and DISCOVER after 8.0 Release 109.

Version 8.0 Release 109

Number	Notes
20369	Fixed: Employee (Assigned To) sales reports did not include tickets created by SpeedLine Connect.
20824	Enhanced: Updated Installer messaging for non-compliant versions of Windows.
20868	Enhanced: In-store order type captions are now sent to SpeedLine Cloud Reporting & Analytics.
20884	Changed: Document Viewer and Help File updated with the Merchant Surcharging Guide pdf.
20891	Fixed: Editing a ticket ticket with a Punchh one-time coupon caused them to be removed.
20944	Fixed: Exporting a DayFile with a Shift Snapshot to text would cause an error.
20951	Fixed: Modifier pricing sent to Punchh was incorrect if you removed modifiers that were part of Item Contents.
20957	Fixed: Subtotal and Receipt Total sent to Punchh for a zero dollar ticket where incorrect.

Version 8.0 Release 108

Number	Notes
20916	Fixed: Improved handling of Punchh reward barcodes for Make Tickets when using ticket format printing with non-loyalty customers.
20923	Fixed: Deleting an additional phone number from a customer always incorrectly showed the main number.
20928	Fixed: Coupon reports would show Punchh coupon ID instead of Punchh coupon name.
20931	Changed: UniTerm upgraded to 9.19.0 (Security Fix).
20940	Fixed: Password Maintenance Tool could cause an incorrect integrity warning when changing an employee password.

Version 8.0 Release 107

Number	Notes
20912	Fixed: Incorrect contactless delivery tag was being sent to DoorDash Drive.

Version 8.0 Release 106

Number	Notes
12152	New: Tenders can now have a percentage surcharge or discount.
20837	New: Message added to prompt user to provide needed documentation when entering a new employee.
20843	New: Terminal, Connect Service and Store Manager now validate the integrity of executables and data.
20849	Enhanced: Updated MD5 hashing of SpeedLine installers to SHA-256.
20875	Changed: Removed Employee Pay Card feature.

Version 8.0 Release 105

Number	Notes
20835	Changed: Improved how Store Manager checks and enforces the Print and Required Times for Deferred Orders.
20851	Fixed: Various fixes to loyalty processing for Punchh and Paytronix.
20854	Fixed: Online delivery orders with tips could cause an error when closing the Driver Bank.
20855	Fixed: Authorization slips were being printed when Force Printing tickets.
20858	Changed: UniTerm upgraded to 9.18.1 (Security Fix).

Version 8.0 Release 104

Number	Notes
20840	Fixed: Credit card slips could print multiple times when assigning delivery ticket to a driver.
20850	Fixed: Numeric Punchh codes could not be redeemed.

Version 8.0 Release 103

Number	Notes
20826	Fixed: Loyalty customers sent via SpeedLine Connect do not download their account information from Punchh.
20831	Fixed: Punchh promo codes would be removed from the ticket if a loyalty account was not attached.
20832	Fixed: Stores could disconnect from Analytics and fail to reconnect.

Version 8.0 Release 102

Number	Notes
20818	Fixed: The logoff timer would log off a user while accessing the Analytics or Special Days screens.

Version 8.0 Release 101

Number	Notes
20814	Fixed: The requested Punchh reward was being included in its own redemption request.

Version 8.0 Release 100

Number	Notes
8093	New: Integrated Canadian credit & debit/Interac processing through Worldpay.
20202	New: Added the ability to edit SpeedDine Special Days from Terminal.
20611	New: Warning message is displayed when time zones or time differences exist between stations.
20631	New: Added support for printing credit card slips in Canadian French.
20700	New: Analytics integration switched to Chromium browser.

Number	Notes
20701	Changed: Uses the Chromium browser in Terminal and Store Manager.
20706	Enhanced: Terminal will block bad addresses and ask the user to confirm potentially problematic addresses before being sent to DoorDash Drive.
20734	Changed: Removed SpeedDine functions from Store Manager Special Days.
20736	Changed: Updated to triPOS Direct 6.1.0.0, which supports Chase Paymentech gateway processing through Worldpay.
20752	Enhanced: Worldpay Omnitoken fields added to SpeedLine Connect API.
20755	Fixed: Tips assigned through the Manager screen would not adhere to the setting to pay tips on the pay period.
20756	Fixed: Sales Tender Reconciliation report was not properly displaying Pay Period Tips in the report.
20765	Fixed: WorldPay transactions from online orders could cause an error when a transaction query was performed.
20776	Fixed: The Employee file was incorrectly calculating the shift's cost when the employee was clocked out without pay by the Day End process.
20777	Fixed: A Discard Changes confirmation dialog would incorrectly appear when viewing an employee and clicking Cancel without any changes.
20795	Fixed: Punchh redemption requests could fail if there was only one item on a ticket.

Version 8.0 Release 016

Number	Notes
20793	Fixed: Issue in Release 14 where Add/Edit Customer messages from Connect providers would sometimes not take effect.

Version 8.0 Release 014

Number	Notes
20779	Fixed: A customer record's delivery zone tax jurisdiction was not being properly set via SpeedLine Connect.

Version 8.0 Release 013

Number	Notes
20748	Enhanced: Improved handling of Punchh connection errors.
20767	Changed: UniTerm upgraded to 9.16.0 (Security Fix).

Version 8.0 Release 012

Number	Notes
20719	Changed: Upgraded Datacap dsiEMVUS to 1.60 and dsiPDCX to 1.78.
20725	Fixed: When selected, "Included Modifiers" was not offsetting the modifier pricing sent to Punchh's loyalty reward redemption.

Version 8.0 Release 011

Number	Notes
20720	Changed: Monetra UniTerm version 9.15.1 (security update).

Version 8.0 Release 010

Number	Notes
9304	New: The "Loyalty" button has been added to the Full Review screen.
20286	Fixed: Tip adjustments no longer change a ticket's close time.
20642	Fixed: Corrected an issue that occurred with deferred tickets and Daylight Saving Time.
20671	Fixed: Corrected an issue which could prevent Size Substitution coupons from calculating correctly.
20680	Fixed: Delivery tickets are now removed from LiveMaps displays once assigned to DoorDash.

Version 8.0 Release 009

Number	Notes
20678	Fixed: Tips for "DoorDash Drive" tickets are now included in Sales/Tender Reconciliation.

Version 8.0 Release 008

Number	Notes
20641	Fixed: DoorDash deliveries were incorrectly included in delivery performance reports.
20651	Enhanced: SpeedLineSetup.exe no longer closes Terminal on other stations when upgrading a non-primary station.
20663	Fixed: Tips from SpeedLine Connect and additional tips did not show up on pay period tip totals.

Version 8.0 Release 007

Number	Notes
11775	Fixed: Security restrictions to not accept restricted tenders were not being respected.
20596	New: Updated PSExec to version 2.34.
20632	Fixed: Vantiv Express gift card activations could cause an error when paying with EMV/CHIP card.
20650	Changed: triPOS Direct upgraded to 6.00.
20655	Changed: The minimum version of Windows required for a new installation of SpeedLine is now Windows 8. Upgrades can still be performed if using Windows 7 or POSReady 7, but the user is warned they are not supported. Windows XP can no longer upgrade.

Version 8.0 Release 006

Number	Notes
20626	New: Added support for Posiflex CR-3115B USB Cash Drawer.

Version 8.0 Release 005

Number	Notes
20617	Changed: Account report now shows whether fees paid to driver are paid on pay period end or bank close.
20622	Fixed: Apartment numbers were not being properly passed to 3rd-party delivery services.

Version 8.0 Release 004

Number	Notes
20493	Enhanced: Sales Tender Reconciliation section of Day Report now shows store bank variance amount if bank's closing cash is less than opening cash.

Version 8.0 Release 003

Number	Notes
20601	Changed: Monetra UniTerm version 9.14.2 (security update).
20604	Fixed: Tip line would print when tip was already prompted on EMV device.
20608	Fixed: Illegal Re-entry error message could appear when Connect Service was processing messages.

Version 8.0 Release 002

Number	Notes
20595	Changed: Monetra UniTerm version 9.14.0 (security update).
20598	Fixed: The final deposit was including the opening bank amounts in the amount to be deposited.

Version 8

Number	Notes
4568	Fixed: The Minimum Wage Shortfall report was calculating overtime hours at regular pay instead of using the defined overtime rate.
10565	Changed: Wording updated on Delivery Performance report from "Credits after Delivery" to "Discounts after Delivery."
15147	New: Option to pay tips to employees on pay period end.
20214	Fixed: Created date for customers was not being included in the DayFile for tickets created by SpeedLine Connect.
20226	New: Tip Details report now includes tips that are recorded to stations when no employee is selected.
20278	New: SpeedLine Cloud Reporting & Analytics add-on.
20353	Changed: Improved formatting of coupon errors in SpeedLine Connect responses.
20367	Fixed: Defer ticket process was prompting for price group when it was not needed.
20400	New: Added the Order Source as an option that can be displayed in the Ticket and Dispatch grid templates.
20417	Enhanced: Ticket lists can include the city name by selecting Address with City in ticket grid templates.

Number	Notes
20430	New: Updated Add Ticket Request message response sample to include new field for OrderSource.
20448	New: The current store name and store ID are displayed at the top left of the Store Manager window.
20457	Changed: Ingenico PIN pad USB driver upgraded to 3.28.
20504	New: Summon a DoorDash driver to deliver an order.
20516	Fixed: Improved handling of Worldpay connectivity issues during Terminal start.
20524	New: Included modifier prices in the ticket information sent to Punchh for rewards.
20533	Fixed: An assertion error message would occur when an employee failed minor employee restrictions repeatedly.
20541	Changed: Datacap components dsiEMVUS 1.54 and dsiPDCX 1.74.
20542	Changed: triPOS Direct upgraded to 5.22.
20552	Fixed: CallerID may not show due to a table error.

Store Manager

Test Track Entry Number	Component	Notes
15147	Accounting	New: Option to pay tips to employees on pay period end.
20837	Employees	New: Message added to prompt user to provide needed documentation when entering a new employee.
20448	Interface	New: The current store name and store ID are displayed at the top left of the Store Manager window.
20226	Tips	New: Tip Details report now includes tips that are recorded to stations when no employee is selected.
20493	Reports	Enhanced: Sales Tender Reconciliation section of Day Report now shows store bank variance amount if bank's closing cash is less than opening cash.
20884	Credit & Gift Cards	Changed: Document Viewer and Help File updated with the Merchant Surcharging Guide pdf.
21025	Credit & Gift Cards	Changed: Updated warning message when adding a tender surcharge to explain card brand limitations.
20981	HotBackup	Changed: Added Monetra 9 folders to the list of folders in the Daily File Backup.
20617	Reports	Changed: Account report now shows whether fees paid to driver are paid on pay period end or bank close.
21023	Reports	Changed: Drivers are now sorted by last name instead of first name on the Fees Paid to Driver Summary Day Report section.
20875	Security	Changed: Removed Employee Pay Card feature.
20776	Employee Time Clock	Fixed: The Employee file was incorrectly calculating the shift's cost when the employee was clocked out without pay by the Day End process.
20777	Employees	Fixed: A Discard Changes confirmation dialog would incorrectly appear when viewing an employee and clicking Cancel without any changes.
7599	Interface	Fixed: In the Order Type Surcharge settings it was incorrectly showing Subtotal instead of Purchase Subtotal.
20369	Reports	Fixed: Employee (Assigned To) sales reports did not include tickets created by SpeedLine Connect.
20928	Reports	Fixed: Coupon reports would show Punchh coupon ID instead of Punchh coupon name.
11775	Security	Fixed: Security restrictions to not accept restricted tenders were not being respected.
