

SPEEDLINE

Payments

SpeedLine Payments

Turning payments into profits, one slice at a time

SpeedLine Payments offers a seamless, all-in-one payment processing solution tailored to meet the unique demands of pizza and delivery restaurants.

As part of the SpeedLine Solutions product family, SpeedLine Payments ensures secure, efficient, and flexible credit card and gift card transactions directly integrated with SpeedLine for smoother operations and enhanced customer satisfaction.

Key Features

- **Direct Integration:** Effortlessly connects with the SpeedLine Solutions product family, allowing for a streamlined checkout experience, reducing friction, and improving order accuracy
- **Fast and Secure Transactions:** Equipped with the latest PCI compliance standards and end-to-end encryption (E2EE) to protect sensitive customer data and offer peace of mind
- **Flexible Payment Options:** Supports all major credit, debit cards, mobile wallets, and contactless payments, giving customers more ways to pay
- **Real-Time Transaction Reporting:** Access to detailed insights and detailed reports on payment activity directly through SpeedLine, allowing for easier tracking and oversight
- **OmniToken Tokenization:** Securely store credit card information for future orders, allowing for faster and easier checkout
- **Customer Support:** Receive assistance 365-days per year from our dedicated support team to resolve any payment-related issues

Why Choose SpeedLine Payments?

As a trusted name for pizza and delivery restaurants, SpeedLine understands its customers needs.

SpeedLine Payments goes above and beyond typical payment processing, offering a tailored experience that integrates seamlessly to deliver speed, security, and reliability.

SaferPayments & Valutec Gift Cards

SaferPayments

The PCI Security Standards Council (PCI SSC) is an independent council in the payments industry requiring companies that process, store, or transmit credit card information to keep transactions secure and protected against card data breaches.

SaferPayments provides a streamlined, self-service PCI compliance tool to help simplify the PCI DSS validation process. As a business processing card payments, a mandatory part of your data security is that you report your PCI compliance. If you do not comply then you risk significant fines and penalties.

Valutec Gift Cards

Valutec makes it very easy to manage your gift cards both in-store and online. Whether you're migrating from an existing card program, offering cashback rewards, or creating a mobile-friendly user experience, Valutec offers the tools to help grow your business.

Valutec easily loads and manages gift cards at your store or online and is available for use across multiple locations with streamlined reconciliation.

Offering simplified direct integration with SpeedLine Solutions for smooth transaction processing and mobile-friendly operations, allowing customers to store gift cards on their smartphones for an easy contactless payments experience.
